

Visualization Switching

This example project shows how to switch visualizations in frames.

Product description

The example shows the possibilities to switch visualizations within a frame. In the example project VisualizationSwitching five implementation options are presented.

More information

The project VisualizationSwitching includes five frames with the following functionality:

Frame 1: Manual change of visualization.

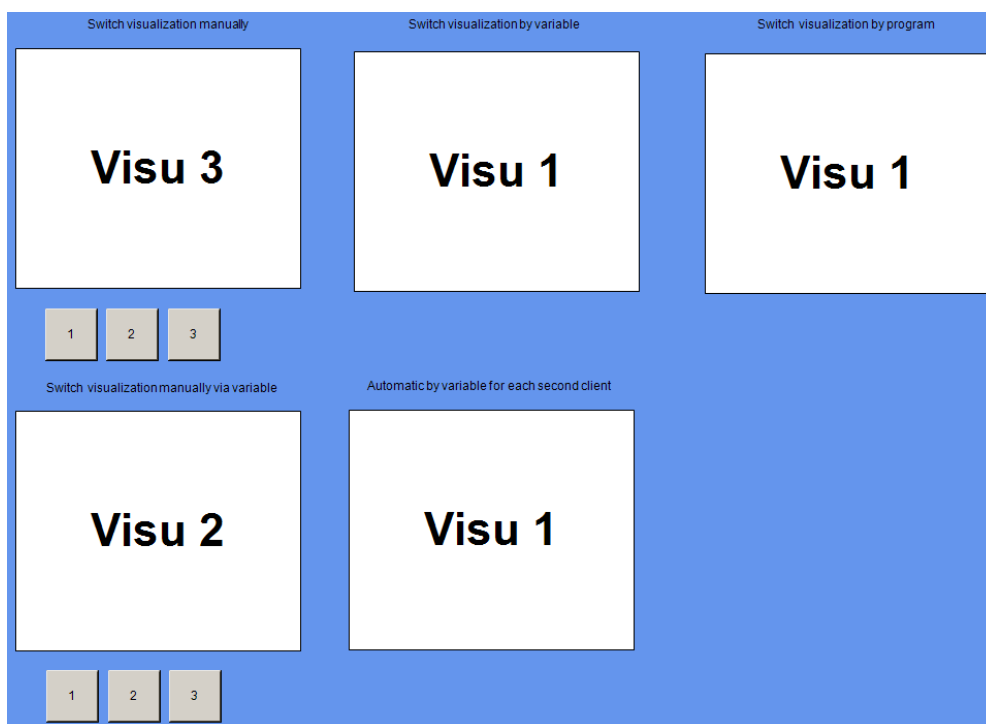

Frame 2: Automatic program controlled change of visualization via variable.

Frame 3: Automatic program controlled change of visualization via FrameManager.

Frame 4: Manual change of visualization via variable.

Frame 5: Automatic program controlled change of visualization via variable for every second client.
