CODESYS **STORE**

Simple Webvisu Login

The example "Simple Webvisu Login" shows how to use the user management of the visualization and how to implement a simple login site.
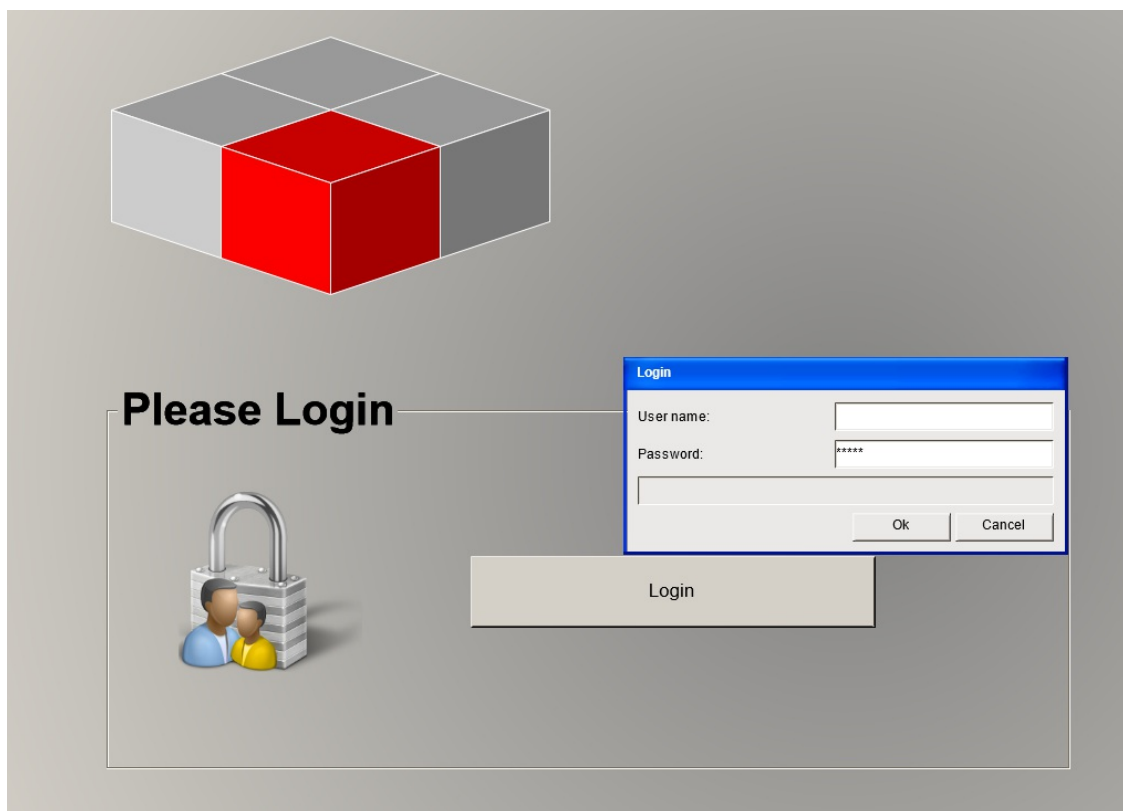

Product description

The example project `SimpleWebvisuLogin.project` shows how to use the following functions of the user management:

- Login
- Logout
- Open user management
- Change password

More information

This example contains two visualizations. The login on the control is done via the visualization `LoginPage`. If the login (User: Admin, Password: Admin) was successful, ` the user will be forwarded to the visualization `MainPage`. The user management is effected by the Visualization Manager. You can find further information in the CODESYS online help.
