Cam Editor

This example project shows how to use the cam editor. The online cam editor is a visualization template which displays a cam table in the visualization. The element allows modifying the cam in online mode.

Product description

This example project shows how to use the cam editor. The online cam editor is a visualization template which displays a cam table in the visualization. The element allows modifying the cam in online mode.

The visualization element is provided as a visualization template (`SMC_VISU_CamEditor`) of the library `SM3_Basic`. It is added to the visualization by use of the visualization element "Frame" and the command "Frame Selection" from the context menu.
