

CODESYS Web View

Quick and easy management of web visualizations in the local wireless LAN network.

Product description

Licensing:

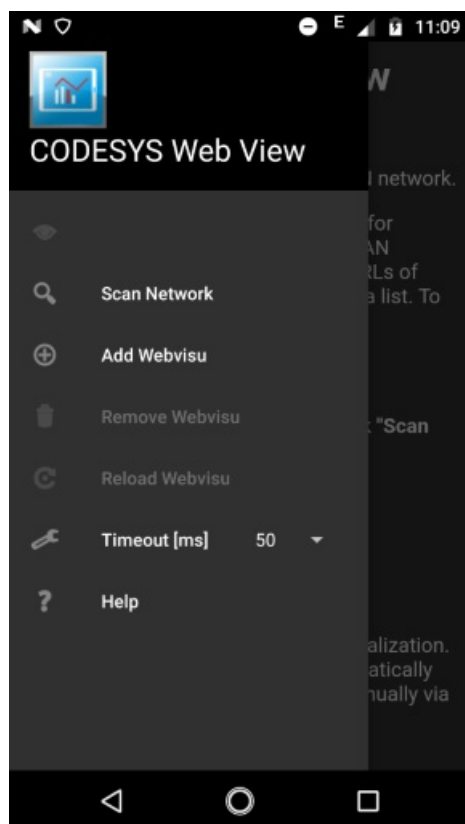

No license is required.

The Android app 'CODESYS Web View' searches the local wireless LAN network for web visualizations. The URLs of web visualizations found are saved in a list. To view a certain web visualization, the corresponding URL can be clicked.

Download via **Google Play Store**: <https://play.google.com/store/apps/details?id=com.codesys.webview>

The following functions are available:

- Search for web visualizations in the local wireless LAN network (for details, see "System requirements and restrictions")
- Manual adding of URLs
- Deleting URLs
- Display of web visualizations
- Updating web visualizations (reload function)
