

LEGAAT

Seamlessly Convert Rockwell PLC Code to CODESYS

Show Image

TRANSFORM YOUR PLC PROGRAMMING WORKFLOW

Legaat is the revolutionary software solution that enables smooth, efficient migration from Rockwell Automation platforms to CODESYS-based systems - saving you time, reducing costs, and eliminating conversion headaches.

KEY BENEFITS

- **80% Automated Conversion** - Convert complex Rockwell programs with minimal manual intervention
 - **Preserve Your Investment** - Maintain your logic while transitioning to more cost-effective hardware
 - **Reduce Migration Time** - Projects that would take months can be completed in weeks
 - **Lower Total Cost of Ownership** - Escape vendor lock-in and embrace the open CODESYS ecosystem
-

FEATURES

- **Intelligent Tag Mapping** - Automatically maps Rockwell tags to CODESYS variables
 - **Structure Recognition** - Preserves complex data structures UDT – DUTs during conversion
 - **Logic Preservation** - Maintains program flow and functionality
 - **Custom Function Support** - Converts AOIs and add-on instructions to CODESYS function blocks
 - **Comprehensive Validation** - Built-in verification tools ensure conversion accuracy
-

WHAT OUR CUSTOMERS SAY

"Legaat reduced our migration timeline from 6 months to just 4 weeks. The ROI was immediate." — *Jeff D., Controls Engineer*

"We were able to preserve years of programming investment while moving to more affordable hardware." — *Sarah L., Manufacturing Director*

COMPATIBILITY

- **Supports All Major Rockwell Platforms:**
 - ControlLogix
 - CompactLogix
 - SLC 500
 - PLC-5
- **Converts To All CODESYS Environments:**
 - CODESYS V3.5, preferred is 3.5.21.00
 - CODESYS-based OEM platforms
 - Compatible with all IEC 61131-3 languages
- Windows 11 required
